FLOWER POCKETS (x2)

Flower Motif Core:
Step 1: MR, 12 sc.
Step 2: [ch 2] around.
Step 3: Round of dc.

Making it a Pocket:
Step 4: Add sc border to make it square.

Follow color key:
(Red-mix and Yellow-mix flowers)

DETAILED INSTRUCTIONS - BOTTOM HALF

SMILEY POCKETS (x2)

Solid sc pocket with increase for curve.

Top edge: sc border.

Embroidery pattern for smiley face.
Chain stitch for mouth.

FRINGE POCKETS (x2)

Creating tassels:

tie

Wrap yarn, tie, cut, trim.

Attaching hanging tabs (sc straps) to panel and rod.

FINAL ASSEMBLY

Arranging and sewing pockets in place.

Create a beautiful and functional crochet wall organizer with this detailed step-by-step guide. This project combines practical storage with charming handmade design, featuring flower pockets, smiley faces, and decorative fringe. Whether you're a beginner with basic skills or an experienced crocheter, you'll be able to follow along and complete this piece from start to finish.

🧵 Materials and Tools You'll Need

Before starting, gather the following materials:

- Medium-weight yarn (worsted weight) in multiple colors:
    - Red
    - Yellow
    - Green
    - White (for flower details)
- Crochet hook (size H/5.0 mm recommended)
- Yarn needle (for sewing and weaving ends)
- Scissors
- Wooden dowel or stick (for hanging)
- Tapestry needle (for embroidery details)
- Stitch markers (optional but helpful)

🧶 Understanding Basic Stitches

Make sure you're comfortable with these U.S. crochet stitches:

- ch (chain)
- sc (single crochet)
- hdc (half double crochet)
- dc (double crochet)
- tr (treble crochet)
- sl st (slip stitch)
- sc inc (single crochet increase)
- sc dec (single crochet decrease)
- popcorn stitch (used for flower petals)

🧩 Step 1: Creating the Main Rectangle Panel

Start by making the base panel that will hold all pockets.

- Chain a foundation row wide enough for your organizer (approx. 35–45 chains depending on desired width).
- Row 1: Starting from the second chain, work sc across.
- Continue working in rows using sc stitches for durability.
- Create a color gradient by changing yarn colors every few rows:
    - Begin with red at the top
    - Transition to orange/yellow
    - Finish with green at the bottom

Work approximately 35–40 rows total to form a large rectangle.

At the top edge:

- Add small loops (using chains and slip stitches) spaced evenly across the width. These will hold the wooden dowel.

🌻 Step 2: Making the Flower Pockets (Make 2)

These decorative top pockets feature a flower motif.

Flower Center:

- Round 1: Create a magic ring (MR), work 12 sc into the ring, join.
- Round 2: Chain 2 between stitches to create spacing.
- Round 3: Work dc stitches around to build structure.

Petals:

- Use popcorn stitches:
    - Work 5 dc in the same stitch, remove hook, insert into first dc, pull loop through.
- Repeat around to form petals.

Turning into a Square:

- Add sc stitches around the circle.
- Increase at corners to form a square shape.

Finishing:

- Fasten off and leave a long tail for sewing.

😊 Step 3: Making the Smiley Pockets (Make 2)

These middle pockets are fun and expressive.

Base Pocket:

- Chain a foundation row (about 20–25 chains).
- Work in sc rows to create a slightly curved rectangle:
    - Use increases (sc inc) at the edges to round the shape.
- Continue until the pocket reaches desired height.

Top Edge:

- Add a border of sc stitches for a clean finish.

Embroidering the Face:

- Use black yarn:
    - Eyes: small vertical stitches
    - Mouth: curved chain stitch or backstitch

🧶 Step 4: Making the Fringe Pockets (Make 2)

These are the bottom pockets with tassels.

Pocket Base:

- Crochet a rectangle similar to the smiley pockets, but slightly taller.
- Use solid sc rows for a sturdy structure.

Creating Fringe:

- Cut multiple strands of yarn (same length).
- Fold strands in half and attach along the bottom edge using a lark's head knot.
- Trim evenly to create neat tassels.

🪡 Step 5: Assembling the Organizer

Now bring all parts together.

Attaching Pockets:

- Lay the main panel flat.
- Arrange pockets in 3 rows:
    - Top row: 2 flower pockets
    - Middle row: 2 smiley pockets
    - Bottom row: 2 fringe pockets
- Use a yarn needle to sew each pocket onto the panel:
    - Sew sides and bottom edges
    - Leave the top open

Spacing Tips:

- Keep equal spacing between pockets
- Align them symmetrically for a polished look

🪵 Step 6: Adding the Hanging Rod

- Insert the wooden dowel through the loops at the top of the panel.
- Cut two strands of yarn or rope.
- Tie securely to both ends of the dowel to create a hanger.

✂️ Step 7: Final Touches

- Weave in all loose ends.
- Adjust fringe for even length.
- Gently block the piece if needed to improve shape.

🎉 Your Organizer Is Ready!

You now have a beautiful handmade crochet wall organizer with six functional pockets. Use it to store:

- Craft supplies
- Mail or documents
- Small toys
- Accessories
