

# Cute Cat Scarf Pattern

## PROFESSIONAL DIAGRAM: CAT SCARF Crochet Pattern & Appliqués

Symbol Legend

○ Chain (ch)	⌣ Half Double Crochet Crochet (hdc)
● Slip Stitch (sl st)	⌣ Double Crochet (tr)
+ Single Crochet (sc)	⌣ Double Crochet (dc)
↑ Treble Crochet (tr)	⌣ Double Treble Crochet (dtr)

- Instructions
1. Crochet the main scarf mesh in blue yarn. Maintain an even count of the lace-like pattern for the entire length.
  2. Make 12 cat motifs and 24 flower motifs in white or cream yarn, using a smaller hook for finer detail.
  3. Sew the cat and flower appliques onto the scarf mesh, alternating the cat head orientation and placing flowers between them.
  4. Secure all appliqué pieces firmly and weave in all yarn ends. Block the final scarf to set the shape.

## Materials Needed

- **Yarn:**
  - **Main Scarf Color:** A sport or worsted weight yarn in light green (or your preferred color for the base).
  - **Cat Appliqué Colors:** White, light gray, dark gray/black (for stripes and details), and a small amount of pink (for the nose/ears, optional).
  - **Flower/Blossom Colors:** White, cream, and yellow (for the center).
  - **Branch/Leaf Colors:** Brown and two shades of green (darker for leaves, lighter for the base).
- **Hook Size:** Appropriate hook size for your yarn weight (e.g., 3.0mm - 4.0mm).
- **Other:** Tapestry needle for weaving in ends and sewing appliques.

## Understanding the Chart and Stitches

The provided image includes a crochet chart (diagrama) and a legend (leyenda) detailing the stitches used in the *Scarf Edge/Flower* and *Flower* section.

### Crochet Stitch Legend (Spanish/English)

Spanish	English	Symbol (Chart)	Notes
Cadeneta	Chain (ch)	$\$ \circ \$$	Basic foundation chain.
Punto raso	Slip Stitch (sl st)	$\$ \bullet \$$ or small dot	Joins stitches or moves yarn.
Punto bajo	Single Crochet (sc)	$\$ + \$$ or $\$ \times \$$	Shortest main stitch.
Punto medio alto	Half Double Crochet (hdc)	$\$ \text{text{T} \$$	Mid-height stitch.
Punto alto	Double Crochet (dc)	$\$ \text{text{T} \$$ with 1 dash	Most common treble-style stitch.

<b>Punto alto doble</b>	<b>Treble/Triple Crochet (tr)</b>	$\text{\text{T}}$ with 2 dashes	Tall stitch.
<b>Punto alto triple</b>	<b>Double Treble/Quadruple Crochet (dtr/quad tr)</b>	$\text{\text{T}}$ with 3 dashes	Very tall stitch.

## 1 Part One: The Scarf Base (Lace Panel)

The scarf is worked in two long, identical panels with a continuous lace edge. The chart mainly illustrates the repeating floral/scallop edge pattern.

### Suggested Scarf Construction

1. **Foundation:** Chain a length that is suitable for a scarf (usually 60 to 70 inches / 150 to 180 cm). Ensure the chain is a multiple of the stitch repeat required for the lace pattern (this must be determined by counting the stitches in the chart repeat).
2. **Center Row (The Foundation):** Work a simple row of single crochet (sc) or double crochet (dc) across the foundation chain. This creates a solid base for the lace.
3. **Lace Edging:** The scarf base uses a long, repetitive pattern that alternates between a chain/netting section (where the appliqués sit) and the decorative, scalloped border.
  - **Repeat Section:** Study the stitch pattern between the points where the cat and blossom appliqués are placed. It appears to be a large mesh or lattice made of **tr** or **dtr** stitches separated by chains, forming large 'windows'.
  - **Side Edging:** The chart shows the border pattern, which is worked along the sides of the long lace panel. It involves working clusters of **dc/tr** stitches into the chain spaces of the previous row, anchored by **sc/sl st**, to create the scallop and small chain-loop design.
- **Tip:** If the lace pattern is too difficult to replicate exactly from the chart, substitute it with a simple, open crochet stitch like a **Filet Crochet** mesh (dc, ch 1, skip 1) or a **Solomon's Knot** pattern for an airy look.

---

## 2 Part Two: The Appliqués (Amigurumi and Flowers)

The beauty of this scarf lies in the three-dimensional appliqués.

### A. The Cats 🐱

The cats are small, flat (low-relief) amigurumi pieces.

1. **Head & Body:** Use a basic pattern for a sitting cat shape. It is worked mostly in white/light gray yarn and uses short rows to shape the head, ears, and body in one piece.
2. **Stripes & Details:** Change colors to dark gray/black to create the tabby stripes. The eyes and whiskers are embroidered onto the finished piece.
3. **Ears:** The ears are shaped by increasing and decreasing stitches or can be crocheted separately and sewn on.
- **Note:** These are not full 3D amigurumi; they are flat shapes meant to be sewn onto the scarf. Search for "flat crochet cat appliqué pattern" for detailed instructions.

### B. The Cherry Blossoms 🌸

The chart provides the specific instructions for the 5-petal flower (cherry blossom).

1. **Center:** Start with a magic ring or chain 4 and join. Work the first round in yellow/cream.

2. **Petals:** Switch to white/cream yarn. The petals are created using a combination of **ch, sc, hdc, dc, tr, dtr, and sl st** (or similar stitches) worked into the previous round or chain spaces, following the diagram precisely.
3. **Stems & Branches:** Crocheted separately in brown, using chains and slip stitches, and then sewn into place.
4. **Leaves:** Small leaf shapes are crocheted in green, using chains, slip stitches, and single crochet, then sewn onto the branches.

---

### **3** Part Three: Assembly and Finishing

1. **Arrange:** Lay out the completed scarf base. Position the cats, branches, and flowers evenly along the lace panel. In the photo, the cats alternate between sitting on the left side and the right side of the lace panel.
2. **Sew:** Using a tapestry needle and matching yarn, carefully sew each appliqué onto the scarf. Ensure they are securely attached, especially along the edges, so they do not flop or detach during wear.
3. **Weave:** Weave in all remaining loose yarn ends securely on the back of the work.
4. **Block:** Gently wash and block the scarf to open up the lace pattern and give it a professional finish.

#### **Customization Tip**

You can easily adapt this pattern by:

- Changing the cat colors to match your favorite feline.
- Substituting the flowers with other small appliqués, like hearts, stars, or different types of flowers.
- Crocheting the scarf in a single, thicker piece instead of a light lace, for a warmer winter look.
